Company introduction

| Company Introduction TOMAS TECH CO.,LTD.

It is a company that proposes "Cost reduction" and "Business efficiency improvement" by introducing the system in Thailand.

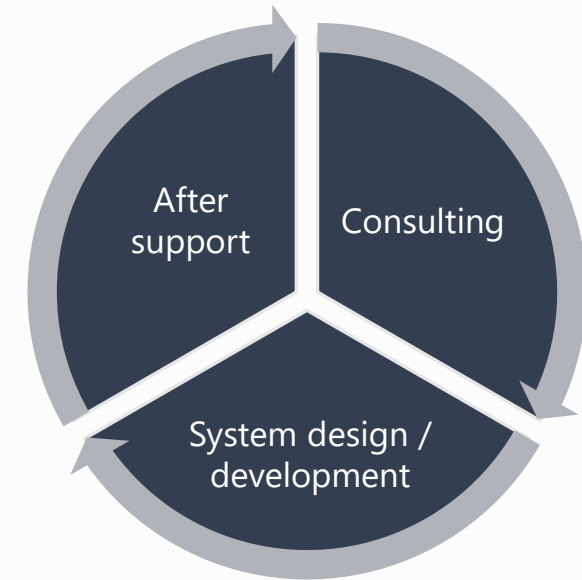

We support the digitization of companies with IoT / DX.

We provide comprehensive support from consulting proposals to system introduction and after-sales support.

In the consulting area, clarify "Customer issues".

With the mission of "Cost reduction" and "Business efficiency improvement" through digitalization, we support customers in a "Accompaniment type" through introductory education and inquiries.

We will fully utilize the experience and know-how of past system introduction to the manufacturing industry and the logistics industry to support the digitization of our customers with "Software" x "Hardware".

Picking System

Handy terminal System

Monitoring / Traceability System
