TOMAS TECH

TOMAS TECH CO.,LTD.

No.1 MD Tower 16Fl, Unit C1, Soi Bangna-Trad 25, Debaratna Rd.,
Khwaeng Bang Na Nuea, Khet Bang Na, Bangkok 10260 Thailand.

Tel :+66-98-271-9741 E-mail : info@tomastc.com

Introduction

This manual explains each handy terminal, how to set it up with a PC, how to check the operation, and how to communicate with a PC.

Please read before starting work.

For safe use of this device

To use this device correctly and safely, be sure to observe the following safety precautions when operating this device. TOMAS TECH cannot be held responsible or warranted for any damage caused by using the product in violation of these precautions.

◆ How to read the symbols

In this manual, the items to be observed in order to use the device safely are classified as follows.

Danger

If you ignore the information on this label and handle it incorrectly, there is a risk of death or serious injury.

Warning

This indicates the contents that may cause injury if the contents of this display are ignored and the product is handled improperly.

Caution

It indicates that property damage may occur if the product is handled improperly, ignoring the contents of this display.

The symbol represents a "caution" that it should be aware of.

The symbol represents an "instruction" that it must execute.

The symbol represents a "prohibition" that must not be done.

The symbols represent the "information" needed to deepen your understanding of this book.

The symbol represents "prohibited handling" by anyone other than a service person.

The symbol indicates that grounding is required during installation.

Reference  Indicates chapters to refer to and other manual references.

For safe use

◆ General caution

Caution

In the unlikely event that this device breaks down, take sufficient safety measures to prevent various damages before use.

Please note that we cannot guarantee the function and performance of products that are used or modified outside the specifications shown in the specifications.

Do not disassemble this device unnecessarily. There is a risk of failure or damage.

Do not allow the device to get wet with water. It may lead to damage to this device.

Please use within the environmental conditions of this device. In addition, even within environmental conditions, equipment may be damaged in an environment where condensation forms due to sudden temperature changes. Do not drop the device or hit it with strong force. Also, if the wiring from this device is likely to be subject to excessive impact, consider how to protect the wiring. It may lead to damage to this device and other devices.

Do not operate the device in a place with flammable or explosive gas or vapor. It is very dangerous to use this device in such an environment.

When using this device in combination with other devices, the functions and performance may not be satisfactory depending on the usage conditions and environment, so please consider carefully before using.

◆ For proper use

Caution

When installing this device, turn off the power of the device. Do not short-circuit each wiring or terminal.

When installing this device, be sure to perform protective grounding to prevent electric shock.

Be sure to check that the power supply voltage of the device matches the voltage of the power supply before turning on the device.

Only our customer service or equivalent handlers should install this equipment.

To supply power to this device, connect it via a protection circuit such as a switchboard breaker or an earth leakage breaker.

Since this device is an electronic device, when installing various devices, investigate the installation environment (primary power supply system noise, drive device system noise, electrostatic discharge noise, etc.) and take countermeasures. It may cause system malfunction or damage to various devices.

1. Overview

We propose a stock management system to Yamato Electric (Thailand) Co., Ltd. In the current operation, we aim to improve work efficiency and work accuracy by replacing the work managed by paper and whiteboard with a system. The expected effects of introducing an inventory management system are as follows.

1. Work efficiency and work accuracy can be improved by supporting work at the handy terminal at the time of warehousing and warehousing. In addition, the inventory status can be grasped in real time.
2. By managing the ordering points, it is possible to eliminate excess inventory and out of stock.
3. By managing the materials and goods tracking, it is able to trace back to find material lot numbers, suppliers, and processes when found problematic products.

2. Handheld functions

2-1-1. Login screen.

1. Open the browser of the website below on your PC to access the link to use on the Cloud.

URL : <https://tom-demo-01.proen.app.ruk-com.cloud/nkt/pegasus/>

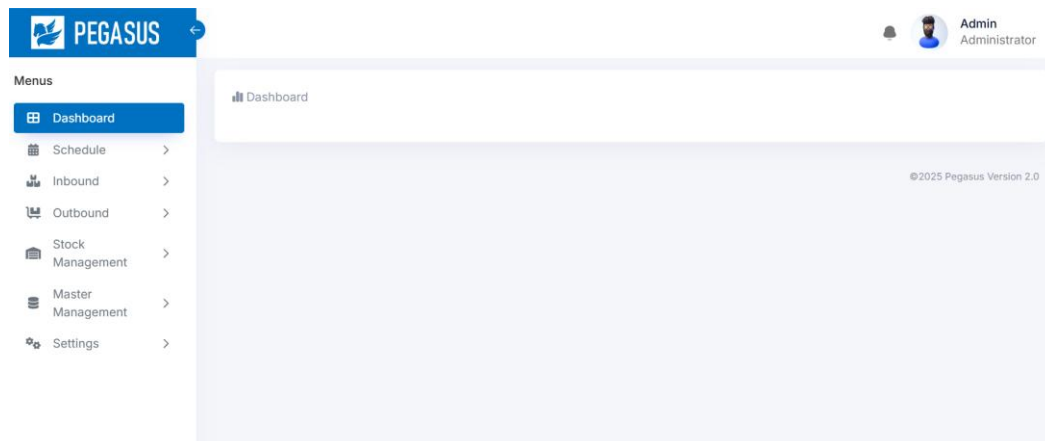

2. Enter Username and Password.

3. Click Sing In

4. Once logged in successfully You will find a menu on the left-hand side of the system. which will have the main menu and various submenus

2. Handheld functions

2. Handheld functions

2-2-2. Inbound Receiving Schedule.

8. Edit Receive Plan: Editing the receive plan will directly impact the entire production plan.

The screenshots illustrate the 'Edit Receive Plan' workflow in the PEGASUS Inbound Receiving Schedule interface. The interface includes a sidebar menu, a top navigation bar, and a main data table.

First Screenshot: The 'Inbound Receiving Schedule' page is shown. The table lists three entries. The first entry (Order No. 1014490) is highlighted with a red dashed box, and the 'Edit' icon (a pencil) is visible in the 'Action Detail' column.

Second Screenshot: The 'Edit Receive Plan' modal is open for Order No. 1014489. The modal displays the order details and a 'Last Update' timestamp. The 'Edit' icon for the second entry (Order No. 1014489) is highlighted with a red dashed box.

Third Screenshot: The 'Edit Receive Plan' modal is shown again, but this time it is for Order No. 1014488. The 'Edit' icon for the third entry (Order No. 1014488) is highlighted with a red dashed box.

The table data is as follows:

#	Order No.	P/O	Dtl No.	Part No	Qty	Total Order QTY (Pur Unit)	Total Actual QTY (Inbound)	Arrival Date	Arrival Time	Action Detail	Status
1	1014490	DT2430	1014490	4		850.00	0	15-10-2024	09:00-15:00	Inbound Receive	Schedule Registered

1. **Search Grouping:** A function for searching for information as specified in each option.

2. **Reset Grouping:** Clear all values in the search fields.

#	Order No.	Customer Code	Ship To Name (EN)	10 Digit	Description	Order Qty	Unit	City	Province	Dimensions (M3)	Weight (KG.)
1	INV24042075	114157	Por. Rungkrungangyorn	4202072665	265/55R17 112S BLT ATS	8.00	PCS	กรุงเทพมหานคร	กรุงเทพมหานคร	.1640	147.0400
2	INV24042131	112130	N.V.D TYRE AND WHEEL CO.,LTD	4202072665	265/55R17 112S BLT ATS	40.00	PCS	กรุงเทพมหานคร	กรุงเทพมหานคร	.1640	735.2000
3	INV24042158	112130	N.V.D TYRE AND WHEEL CO.,LTD	4202020650	265/50R20 119H XL BLT ATS	12.00	PCS	กรุงเทพมหานคร	กรุงเทพมหานคร	.3580	225.9600

3. **CSV:** Export data as a CSV file.

2. Handheld functions

2-7-1. Grouping.

4. **Save:** Saves the vehicle grouping information, used for organizing deliveries by combining multiple orders into a single shipment.

- How to manage grouping

- To add orders to the grouping list:

Select the desired rows from the Shipping Table (lower table), then click the up arrow icon (↑) to move the selected orders to the Grouping Table (upper table) for delivery grouping.

- To remove orders from the grouping list:

Select the desired rows from the Grouping Table (upper table), then click the down arrow icon (↓) to remove the selected orders from the grouping before saving.

The screenshot displays the PEGASUS software interface for the 'Grouping' function. The interface is divided into two main sections: the 'Grouping Table' at the top and the 'Shipping Table' at the bottom. The 'Grouping Table' has columns for Order No, Customer Code, Ship To Name (EN), 10 Digit, Description, Order Qty, Unit, City, Province, Dimensions (M3), and Weight (KG.). The 'Shipping Table' has columns for Delivery Date, Order No, Customer Code, Ship To Name (EN), 10 Digit, Description, Order Qty, Unit, City, Province, Dimensions (M3), Weight (KG.), and Remark. The 'Grouping Table' shows 4 entries, and the 'Shipping Table' shows 10 entries. A red dashed box highlights the 'Save' button in the 'Grouping Table' header. Another red dashed box highlights the 'Up Arrow' icon in the 'Shipping Table' header. A third red dashed box highlights the 'Down Arrow' icon in the 'Shipping Table' header.

The screenshot displays the PEGASUS software interface for the 'Grouping' function after a successful save operation. A 'Success!' dialog box is displayed in the center, indicating that the data was saved successfully. The 'Grouping Table' and 'Shipping Table' are visible in the background, showing the same data as the previous screenshot.

2. Handheld functions

2-6-1. Grouping.

5. **Print:** Prints the delivery shipment list generated from the grouped vehicle assignments.

2. Handheld functions

2-7-2. Loading Report.

4. **Delete:** Remove the selected item from the table.

The screenshot shows the PEGASUS Loading Report interface. The top toolbar includes buttons for 'Add', 'Edit', 'Delete', and 'Loading Confirm'. The 'Delete' button is highlighted with a red box. Below the toolbar is a table with columns: Delivery Date, Order No., Customer Code, Ship To Name (DN), 10 Digit, Description, Order Qty, Actual Qty, Unit, City, Province, Remark, Full, Trip, Start, Actual Delivery, Finish, Driver, Truck No., Type, Sub Con., and Dimensions (M3). The table contains four rows of data. The first row is selected, and the 'Delete' button is highlighted.

The screenshot shows the PEGASUS Loading Report interface with a confirmation dialog box. The dialog box has the title 'Confirm' and the text 'Do you want to delete the selected 1 grouping for item?'. There are two buttons: 'No' and 'Yes'. The 'Yes' button is highlighted.

The screenshot shows the PEGASUS Loading Report interface with a success message. The message says 'Success! Updated successfully'. There is a 'Yes' button at the bottom of the message box.

2. Handheld functions

2-7-2. Loading Report.

5. Loading Report:

The screenshot shows the PEGASUS Loading Report interface. The left sidebar contains a menu with options: Dashboard, Schedule, Inbound, Outbound, Stock Management, Master Management, Transport, Cloning, Loading Report, and Settings. The main area displays a table of loading reports. The table has columns for Delivery Date, Order No., Customer Code, Ship To Name (EN), MD Digt, Description, Order Qty, Actual Qty, Unit, City, Province, Remark, Aut, Trip, Start, Actual Delivery, Finish, Driver, Truck No., Type, Sub Con., and Dimensions (M3). The table shows three entries. The 'Loading Confirm' button is highlighted with a red dashed box.

Delivery Date	Order No.	Customer Code	Ship To Name (EN)	MD Digt	Description	Order Qty	Actual Qty	Unit	City	Province	Remark	Aut	Trip	Start	Actual Delivery	Finish	Driver	Truck No.	Type	Sub Con.	Dimensions (M3)

The screenshot shows the PEGASUS Loading Report interface with a confirmation dialog box. The dialog box has the title 'Confirm' and the text 'Do you want to confirm the selected 1 loading report item?'. There are two buttons: 'No' and 'Yes'.

Confirm

Do you want to confirm the selected 1 loading report item?

No Yes

The screenshot shows the PEGASUS Loading Report interface with a loading confirmation dialog box. The dialog box has the title 'Loading Confirm' and the text 'Order No: RVQ34542731'. It contains fields for 'Aut' (set to 1), 'Unit' (set to PCS), 'City' (set to Bangkok), and 'Province' (set to Bangkok). There are also fields for 'Start' and 'Actual Delivery' (both set to 02-04-2025). The dialog box has 'Open' and 'Close' buttons.

Loading Confirm

Order No: RVQ34542731

Aut: 1

Unit: PCS

City: Bangkok

Province: Bangkok

Start: 02-04-2025

Actual Delivery: 02-04-2025

2. Handheld functions

2-7-2. Loading Report.

6. **Edit:** Allows editing of the Loading Report only when the status is 'Loading Confirm'.

The screenshot shows the PEGASUS Loading Report interface. The left sidebar contains a menu with options: Dashboard, Schedule, Inbound, Outbound, Stock Management, Master Management, Transport (selected), Grouping, Loading Report, and Settings. The main area displays a table of loading reports. The first row is highlighted, and the 'Loading Confirm' button is highlighted with a red dashed box. The table columns include: Delivery Date, Order No, Customer Code, Ship To Name (SN), 10 Digit, Description, Order Qty, Actual Qty, Unit, City, Province, Remark, # of, Trip, Start, Actual Delivery, Finish, Driver, Truck No., Type, Sub Con., and Dimensions (M3).

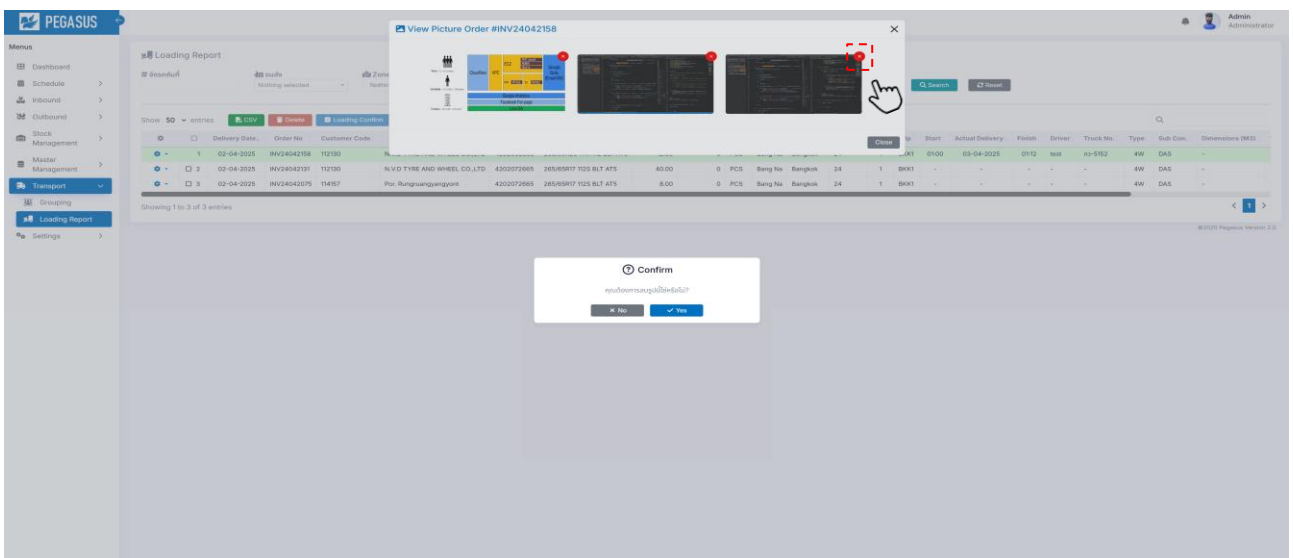

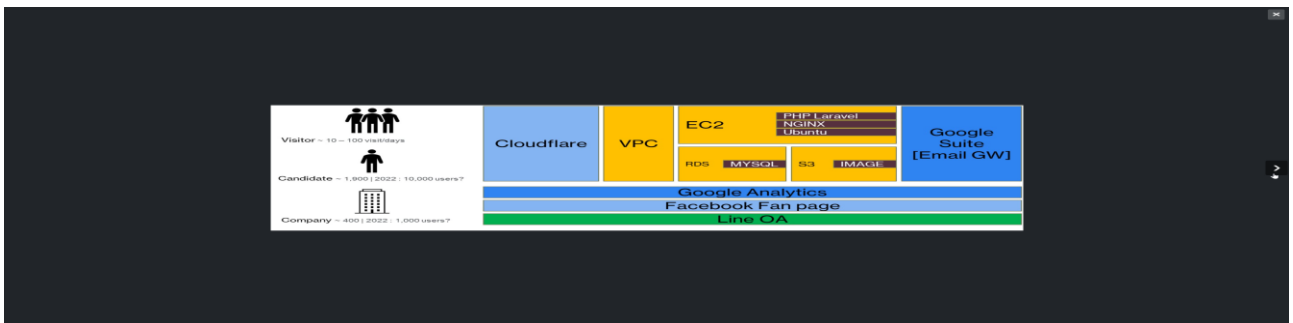

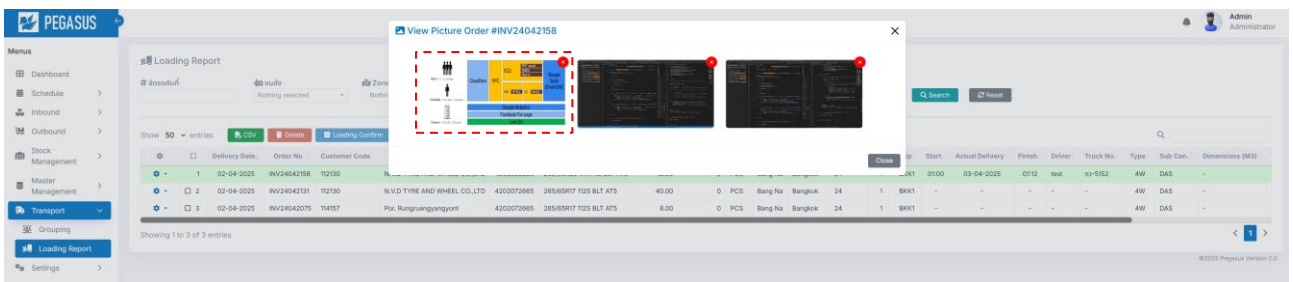

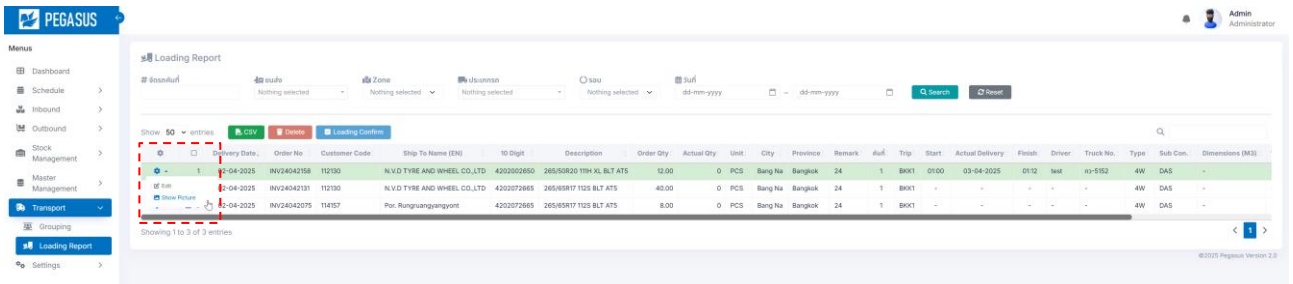

The screenshot shows the PEGASUS Loading Report interface with the 'Edit' modal open. The modal displays the details of the selected loading report, including the Order No (INV24042158) and the Last Update (02-04-2025 21:06:02). The modal contains fields for # of, Date, Time, Region, and Status. The 'Apply' button is highlighted with a red dashed box. The background table shows the same data as the previous screenshot.

The screenshot shows the PEGASUS Loading Report interface after a successful update. A 'Success!' message is displayed in the center, stating 'Updated successfully' and 'OK'. The background table shows the same data as the previous screenshots.
