FIXED-Problem of Data auto correcting program

02 Sep 2025 14:08 - Thanthima Phaengkham

Status:	Closed	Start date:	27 Aug 2025
Priority:	Normal	Due date:	29 Aug 2025
Assignee:	Thanthima Phaengkham	% Done:	100%
Category:		Estimated time:	24.00 hours
Target version:		Spent time:	24.00 hours
Finish date:	29 Aug 2025	DB skills:	MS SQL Server
Programming skills:	Windows/C#	OS skills:	Windows server
Description			
Request by K.Naruemon			
1. When we open the program the data completed sync normally. After that, we try to search this serial no. it cannot preview the data fill on output.			
2. When we export file some data each point not fill on output file such as the raw data have value on point 10 but the output blank.			
3. When we close the program and open again and search serial was sync it not found the previous serial. It shown only serial current sync.			

History
