Description

Problem:
Found the problem with the handy being able to scan the other label which same as the designated part but with the wrong case number.

Solution:
Read and check the sequence number with the master plan on the handheld scan.

Informed by: K.Kwanchai

#1 - 08 Nov 2023 22:51 - Kittisak Isarapongporn

- Subject changed from Found the problem with the handy being able to scan the other label to Found the problem with the handy being able to scan the other label [STAGING AREA]

- Status changed from New to In Progress

- % Done changed from 0 to 50

Read and check the sequence number with the master plan on the handheld scan.
1. Modify the handheld in staging scan function to read the sequence number

2. Modify the web service to check the sequence number on the validation label function.
