BUG [lists edited successfully]

“Problem”

- 1.Duplicat lot no.
- 2.problem with data not being sent for printing.

“Cause”

- 1.Order printed labels together with the same machine from different menus between Defective label menu with Taping label. Because the Defective label menu generate lot no --> take photo --> insert lot no. This allows the system to retrieve the original lot number that has not been updated.
- 2.Still don't know what the real cause is.

“Solution”

- 1.change work flow from generate lot no --> take photo --> insert lot no. to generate lot no --> insert lot no.--> take photo
 - 2.Check information before sending it for printing.
- If found to be blank Will notify you to make a new transaction.

other lists edited successfully

- 1.Check the printed quantity so that it is not blank or 0.
- 2.Defective label menu show the QTY/REEL and can be edited

Change format balance label

Haven't fixed it yet, waiting to finalize details with the customer.
